Our exclusive purchase option program:

You would like to purchase one of our machines but would like to get permission to use it in your country or check some other details first before you finally decide ?

So our exclusive purchase option program is the right choice to reduce your risks and buys you time.

We provide exclusive purchase options on our machines for only 1 % of the purchase price per week.

Example:

You wish to block one of our turbines which cost 100.000 € for two months so that nobody else can buy it. Only you have the exclusive option to buy it.

So you order an 8 weeks long purchase option from us for 8.000 €.

Your option period starts upon receipt of the 8.000 € purchase fee in our account.

Within this option period of 8 weeks you have three choices:

- a) Not enough time for you ? Just extend your option period for additional 1% per week. Or
- b) You finally decided to buy this turbine ? Just wire the rest payment of 92.000 € to buy it. Or
- c) You finally decided NOT to buy this turbine ? Just let expire your option time. We keep the 8.000 € option fee.

Our Exclusive purchase option terms are:

- 1) Minimum of 4 weeks option time.
- 2) Option fees will be full deducted from the purchase price you pay.
- 3) All costs like rent, administration fees or interest are included in the option fee.
- 4) Options can be extended as long as you like.
- 5) Option fees are never refundable – only deductible from the purchase price in case of buying.

Small parts:

Sometimes our clients leave us small genset parts like mufflers, gas trains, canopies, control panels and many others because they want to use their own systems. We list the small stuff only in our Ebay-Shop. Find it here:
